Have It Your Way

You can have the Point of Sale Solution, Surveillance System or BOTH. Our surveillance system will integrate with your PC Based POS. And if you don't have a PC Based POS, then we will provide you with an external unit to work with your proprietary POS.

Installation

This is the Turn-Key Solution. However, if you need help we can provide assistance by phone or on-site installation. Call one of our Sales Consultants for pricing and availability.

Summary

The POS-DVR surveillance system provides contextual awareness to reduce shrinkage and protect assets against business losses.

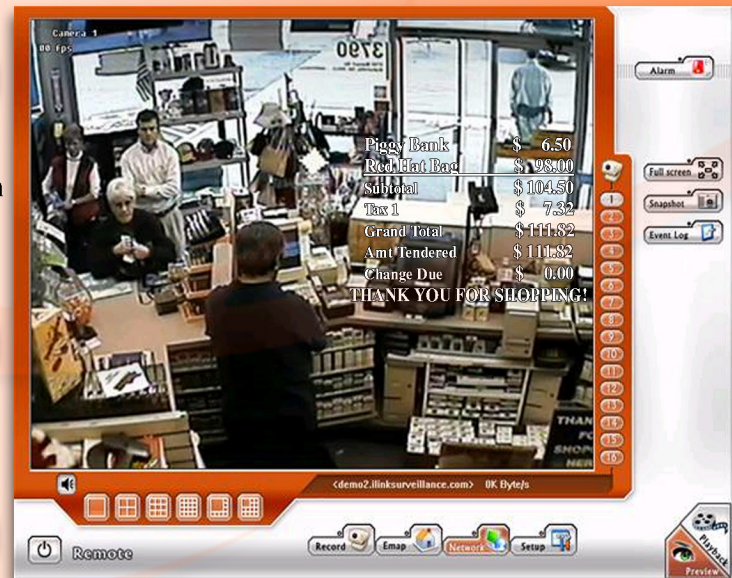

Help Lower Monthly Expenses: Monitor inventory and cash shrinkage

Give Peace of Mind: Provide a safer environment for your employees

Increase Loss Prevention: Compare transaction data with recorded video contents to verify refund frauds, void manipulation, or wrong cash handling procedures.
